MARCH 2022

	Pillar				PILLAR1: BLUEGRO	w T H		PILLAR2: CONNECTING THEREGION						
	Topic	Blue technologies			Fisheries and aquaculture			Maritime and marine governance and services	Maritime transport Intermodal connections to the hinterland Energy networks					
	Actions from Action Plan (Draft EC as of 12/2019)	Foctering quadruple helix ties in the fields of marine technologies and blue biotechnologies for advancing innovation, business development and business adaptation in blue bio-economy.	Promoting sustainability, diversification and comp	etitiveness in the fisheries and aquaculture sectors	through education, research & development, administ and healthy nutritional habits.	trative, technological and marketing actions, including the	ne promotion of initiatives on marketing standards	Bolstering capacity building and efficient coordination of planning and local development activities for improving marine and maritime governance and blue growth service.	Harmonised, environ-mental-friendly and inclusive maritime transport system in the Adriatic-Ionian Region	Competitive, seamless intermodal connections for freight and passenger transport in the Adriatic-Ionian Region.	Power networks and market for a green adriatic-ionian region.	Integrated natural gas corridors and market for a green adriatic-lonian region.	Development and operation of logistics for direct ing use as a clean fuel for the adriatic-ionian region.	
	The title of the project idea		Sustainable packaging of fish and seafood based on marine bioresources - SeaSusPack	Fishing tourism and ichthyotourism diversification activities in the Adriatic- Ionian Region - Fish TourAIR	Evaluating freshness and authenticity with real-time non-destructive methods to increase the value added of Adriatic Ionalan macroregion produced fish - AlmFrish	The Effects of anthropogenic pressures and climate change in the nutritional and commercial value of two small pelagic fish species of importance to ADRION region fisheries: Biodiversity and energy flow from the Ecosystem to the final product- EURYNOME	Developing a cost – effective observatory system, tailored to the needs of Aquacultures with remote access, real- time data and forecast capabilities - AMOS		Adriatic Ionian Region Masterplan for Transport Interconnectivity – Maritime dimension	Adriatic Ionian Region Masterplan for Transport Interconnectivity – Land and air accessibility	Adriatic Ionian Region Masterplan of Energy Networks for the Adriatic-Ionian region	Road Map towards the EUSAIR Power Exchange and Natural Gas Trading Hub
